The National Table of Frequency Allocations between Radio Frequency Services of the Republic of Belarus was updated

The Council of Ministers of the Republic of Belarus adopted Resolution No. 303 of June 6, 2025, which approved a new version of the National Table of Frequency Allocations (NTFA) of the Republic of Belarus.

 The draft document was developed by the Ministry of Communications and Informatization of the Republic of Belarus with the participation of the state enterprise 'BelGIE' and radio frequency services of the Republic of Belarus.

✍ The updated NTFA reflects the national implementation of the ITU Radio Regulations provisions and takes into account the changes adopted at the 2019 and 2023 World Radiocommunication Conferences.

☑ The approval of the new edition of the NTFA will contribute to:

- further development of mobile broadband communications and related services based on modern 4G, 5G and 6G technologies

- ensuring stable and accessible communications for users

- reliable operation of services related to ensuring security

- competent spectrum regulation in the interests of the state and society
